

Flanges

Flanges for vital connection

Flanges manufacturing standards according to DIN / GOST/ ASME / BS

Types: Welding Neck Flanges, Blind Flanges, Slip on Flanges, Threaded Flanges, Orifice Flanges, Lap Joint Flanges, Long Welding Neck Flanges, Spectacle Blind Flanges, Paddles, Weld-head flanges and special Flanges acc. to drawings.

ASME Flanges

Pressure types: From 150 up to 2500 lbs

Material Grades: A105/C21, C 22.8, P 250 GH, A182 F5 + F9 + F11 + F22 + F91, A182 F304L + 316L, 1.4541, 1.4571, Duplex (F51), Superduplex (F53 and F55) A350 LF2, W/T/STE 355

Dimensions: From 1/2" up to 36"

DIN flanges

Pressure types: From PN 6 up to PN 400

Material Grades: C 22.8, P250GH, 1.4541, 1.4571, 1.4539, 15 Mo3, 16 Mo3, W/T/STE 355, H II, 13 CrMo 44, 12 CrMo 9 10, 12 CrMo 19 5,

Dimensions: All standardized dimensions

Facings and Finishes:

To all requirements according to customer's specification

Coating, Blasting and Marking:

To all requirements according to customer specification
